If acceptance/ comments (if any) is not received from contractor, within one week from the date of this order, it will be considered that the various terms and conditions indicated in the order is acceptable to the contractor. Contractor shall communicate with Client only in writing for any changes in contract and it should not be deemed as accepted unless specifically written communication is received from Client.

3.,,Construction of Contract and Legal Jurisdiction</>

Contractor shall be governed by the applicable laws in India. All matter relating to this contract are subject to the exclusive jurisdiction

4.,,The order of precedence of Work Order shall be as follows:</>

i.,,Addendum/Corrigendum/Clarifications issued shall prevail over Special Conditions.
ii.,,For Contract Conditions, Special conditions shall prevail over Type Specific Conditions of Contract and Type Specific Conditions shall prevail over General Conditions of Contract.
iii.,,For technical clarification and general guidelines towards technical specifications and work-man ship, Technical Specification shall prevail over bills of quantities and Contract Conditions.
iv.,,Bills of Quantities (to be read in conjunctions with Technical Specification and drawings for unit rate quoted) shall prevail over all items, Unit and scope of work.
v.,,For legal matters, contract conditions to be read along with addendum/ corrigendum/ clarifications issued shall prevail over specification & B.O.Q.
vi.,,For execution of works, Good for construction drawings will prevail over tender drawings.
vii.,,If any term and condition make contradictory between general term and condition and header text, than header text terms and conditions should supersede instead of general terms and conditions.

5.,,Cross Fall Breach Agreement</>
The award of two/three separate Contracts shall be governed with the following cross fall breach Agreement

i.,,The award of two/three separate Contracts shall not in any way dilute the responsibility of the Contractor for the successful completion of the Works and a breach in one Contract shall automatically be construed as a breach of the other Contract which will confer a right on the Client to terminate the other Contracts also and to execute the balance Works at the risk and cost of the Contractor.
ii.,,It is expressly understood and agreed by and between the Parties that each Party is entering into this Agreement solely on its own behalf and not on behalf of any other person / entity / associate company / group company. It is expressly understood and agreed that the Parties are an independent legal entity with power and authority to enter into Contracts solely on its own behalf under the applicable laws of India and the general principles of laws of the Contract.

6.,,Offloading & Subletting of Job:</>

The Client will award the Contract to the Contractor by virtue of their expertise and experience in execution of such Works and therefore no part of the Contract or any share or interest therein shall in any manner or degree be transferred, assigned, or sub-let by the Contractor directly or indirectly to any person, firm or company whatsoever without the prior consent in writing of the Client for which the Contractor shall give a written request to the Client at least 30 days in advance of the proposed date of transfer, assignment or sub-letting. In the event of the Contractor contravening this condition, the Client shall be entitled to place the contract elsewhere on the Contractor's account and at its risk and cost, then the Contractor shall be liable for any loss damage which the Client may sustain in consequence or arising out of such replacing of the Contract. This shall not relieve Contractor of any responsibility under this Contract. However, the execution of the Works by Piece Rate Worker (PRW) contract under the direct and personal supervision of the Contractor shall not be deemed to be sub-contract/sub-let under this clause.
sub-contract/sub-let under this clause.

Contractor shall not offload/ sublet the job given to him without prior approval and permission in written from Client for any contract in full/ partial.

7.,,Workmanship/Measurement Work / Submission of Bill:</>

i.,,Work shall be supervised, inspected and measured as directed by Engineer-in-charge and entered in the measurement book for the Scope of Work with signature of both contractor and Engineer-in-charge or their representative as token of acceptance. Payment shall be made as per actual quantity executed. For all labor intensive jobs, it is mandatory to maintain and submit daily report of workmen attendance duly verified by EIC.

ii.,,All the contractors/site in charges and workers has to do the compulsorily biometric punching attendance.

iii.,,All the contractor has to attend the monthly meeting of every month else appropriate fine will be imposed if contractor found absent.

iv.,,Duly approved Construction program will be submitted by the Contractor to Engineer In-charge of Client.

v.,,All work completed / in progress shall be duly recorded and certified by Client Engineer-in-Charge.

vi.,, Any material for which origin/makes/suppliers are identified in contract/BOQ or annexures, contractor has to procure the same, wherever applicable. Any deviation to the Origin/make needs to be approved by User Department/Procurement/Finance with adequate financial impact due to change in rate.

vii.,,If any part of contractor's work depends upon the work of any other contractor and if any defect in such work is observed, contractor shall promptly report the same to Client. If the delay is not duly reported and certified by JSOL same will not be considered for Calculation of LD penalty.
viii.,,Client shall not be liable for any loss or damage to contractor's equipment as a result of voltage fluctuation or interruption in power supply or any other loss.

ix.,,Contractor shall, without any additional payment shall keep the working and storage area clean and free from accumulation of waste. In case of exigency, Client may itself remove and cost to be recovered from contractor.

x.,,The welding electrodes and other consumables used for the job should be of make approved by the Client i.e.-L<(>&<)>T, Advani, ESAB, India and D<(>&<)>H Scheron. If any instances of deviation found adequate penalty may be deducted by JSPOL.

xi.,,Paints used for the job shall be of Shalimar make and of approved specifications as per Technical Specification. Before using any particular equivalent brand/make written approval of Client to be taken.
xii.,,The Contractor shall ensure that the bench marks, reference

points, etc. which are marked either with the help of Client or by the Client shall not be disturbed in any way during the performance of its Works.

xiii.,,Bills not supported by duly certified measurement sheet /Bar bending schedule, certificate shall not be considered as work done and correspondingly shall not be considered for payment under the contract.

xiv.,,Survey Report if required shall be submitted along with the bills in such cases.

xv.,,All measurement should be cumulative in nature and all bill pages are to be numbered. In case of running account (RA)bills contractors shall submit soft copies of measurement sheet in standard format as may be required by Client

xvi.,,Joint record for deviation from drawing and deviation from specification is to be provided.

xvii.,,All Quality protocols with regard to Indian/International standard codes/Technical Specifications and Quality Assurance Plan should be documented and produced along with the bill.

xviii.,,Scope of work defined in the contract if narrows/deviates during execution of that particular item, scope of work shall be reduced and payment shall be made on pro-rata basis. In case of advance necessary recovery / deduction from advance towards reduced scope shall be made on pro-rata basis.

xix.,,Material consumption statement shall be submitted for free issue materials along with bill.

xx.,,Material return statement along with copies of store return note to be provided along with bill.

xxi.,,Material reconciliation statement for any plant, equipment and materials issued to the Contractor, shall be submitted along with the bill.

xxii.,,Job completion certificate, cumulative measurement details (with drawing no and revision), and no claim certificate to be submitted by the contractor in case of final bill.

xxiii.,,Tax invoice along with gate entry challan for the materials in the scope of contractors.

xxiv.,,Manufacturer's Test Certificate for all items pertaining to scope of contractor

xxv.,,DPR with respect to manpower, equipment etc. for each sub-contractor must be submitted to site in charge.

xxvi.,,After completion of defect liability period, contractor has to obtain the clearance certificate from concern department for release of retention.
xxvii.,,In respect of both RA Bills and final Bill, purely as a matter of convenience and to help expedite the work, the Engineer may ask the Contractor to furnish the details in a computer disc/soft copy format/ mutually agreed software package, and the Contractor shall supply the same. However, the same shall not replace the written and signed bills and other documents to be submitted by the Contractor under the Contract.

8.,,Submission and Payment of Bill:</>

"Payment Terms mentioned in this Order shall be applicable from the date of acceptance of Service (Date of Service Entry Sheet) AND date of Invoice uploading at JSP Portal by the vendor, whichever is later."

a.,,The invoice/ RA bills for the Scope of Work as defined earlier should be submitted within 2 weeks of completion of job to Engineer-in-charge in triplicate for verification, on monthly basis or as specified complete in all respect and acceptable.
b.,,The invoice must be supplemented with the work measurement sheet and workmen attendance sheet duly attested by Engineer in-charge.

c.,,In case, the job is associated with the supply of materials, the invoice must be supplemented with the material challan duly stamped with Gate Entry number, Packing list, Tax invoice, Quality assurance & test certificates.
d.,,Contractor has to submit the bill to the HOD of User Department with a copy to Bill passing section, Accounts Department.

Invoice shall indicate:
a) Complete Name & Address of Service Provider
a) Serial Number of document
b) Date of issue
c) GST Registration Number (if applicable)
d) Category of services for which registered (if applicable) &
e) Description of the services provided
f) Value of the services provided
g) GST amount paid or payable (if applicable)
h) Contractor to claim GST separately in the invoices and that invoice
i) serial number should not be handwritten
j) Mention the plant/ place of service rendered
k) Period / Duration of service.
l) PAN Number

e.,,The workmen payment sheet and PF challan, if applicable, must be submitted with invoice after verification and attestation by in-charge (P<(>&<)>A). If applicable and specified explicitly in the work order, PF and Insurance shall be reimbursed at actual on producing documentary evidence.
f.,,The Contractor shall submit statutory clearance certificates like PF/ESI etc within one month from date of submission of bills. Next on-account bill will be processed only after, statutory clearance certificates for the previous month has been submitted. Material reconciliation statement shall be submitted along with the bill as appropriate.

g.,,Payment (Net amount) after adjusting the recoveries & deduction of Taxes, will be released by the Client within due date after final service entry sheet of receipt of bill along with all relevant documents complete in all respects after detailed certification. It is an expressly agreed term of the contract that no interest whatsoever shall be paid by the Client for any bona fide delay in payment of "On - Account - Bills. All "On - Account" payments shall be regarded as advance payment to be finally adjusted against the "Final bill Payment".
h.,,HOD (Finance & Accounts), Client shall be the paying officer.

i.,,Contractor shall submit bill only in his/her name, in case of deviation, an NOC from the principal contractor is to be secured to avoid any future disputes.

j. For All HEMM / LMV equipment deployed in Jindal Steel -
i. No bills will be processed without GPS supporting documents uploaded on Nimble along with the invoices.
ii. GPS details must be certified by the user (Site Team) before submission.
iii. This requirement is 100% mandatory and no deviation will be allowed.
iv. GPS fitted in the Vehicle should integrate with Jindal Steel - IT system. (This is relevant to contractors who have inbuilt GPS in their vehicles.)

9.,,Currency of Payment</>

The Contract Price shall be paid in Indian currency or currencies as incorporated in the Contract.

10.,,Tax Clause Applicable to all Indigenous work orders</>

A.,,GST :

a.,,For the purposes of this Clause the following expressions shall have the meaning given as under:

i.,,GST - means any tax imposed on the supply of goods or services or both under GST Law.
ii.,,Cess - means any applicable cess, existing as on date or applicable in future on the supply of goods or services or both.
iii.,,GST LAW - means IGST Act 2017, GST (Compensation to the States for Loss of Revenue) Act 2017, CGST Act 2017, SGST/ UTGST Act 2017 and all related ancillary legislations.

b.,,The rates quoted by the Contractor shall be inclusive of all taxes, duties, levies and Cess except GST and compensation cess. Contractor has to clearly show the amount of GST/compensation cess separately in the Tax Invoices raised by them. Further, it is the responsibility of the Contractor to make all possible efforts to make their Accounting/IT system GST compliant in order to ensure timely availability of Input Tax Credit (ITC) to Client.

c.,,In case of variation (increase/decrease) in the rate of GST after the date of agreement, the said revised rate shall be reimbursed or recovered on production of relevant statutory documentary evidence. This provision shall be applicable only during the original period of contract. However, during the extended period of contract, if any, this provision shall be applicable as follows:
i.,,If input tax credit (ITC) is available, the said revised rate shall be reimbursed or recovered.
ii.,,In other cases (i.e. where input tax credit is not available), the said revised rate shall be reimbursed or recovered only if the reasons for extension of the contract is attributable to Client

d.,,In cases where GST is leviable on any facilities/supplies provided by Client and used by Contractors and the consideration for which is recovered by Client in the form of reduction in the value of invoice raised by Contractor, then Client shall raise GST invoices on such transactions and the same will be borne by Contractors.

e.,,Contractor agrees to do all things not limited to providing GST compliant invoices, debit notes, credit notes or other documentation as per GST law relating to the above supply, payment of taxes, timely filing of valid statutory returns for the tax period on the Goods and Service Tax Portal etc. that may be necessary to match the invoice on GSTN common portal and enable Client to claim input tax credit in relation to any GST payable under this Agreement or in respect of any supply under this Agreement. GST charged on debit notes shall be reimbursed only if such debit notes are issued within the prescribed time limit for availing of credit.

f.,,In the event contractor issues a credit note to the Client, such credit note shall include GST component only in circumstances set out under the GST law and upon mutual agreement between Contractor and Client. This shall be subject to the condition that Contractor shall comply with the procedural requirements relating to issuance of credit notes under the GST law.

g.,,In case the Input Tax Credit of GST is denied or demand is recovered from Client on account of any non-compliance by the Contractor, including non-payment of GST charged and recovered, the Contractor shall indemnify Client in respect of all claims of tax, penalty and/or interest, loss, damages, costs, expenses and liability that may arise due to such non-compliance. Client, of its discretion, may also withhold/recover such disputed amount from the pending payments of the Contractor.

h.,,Contractor shall maintain high GST compliance rating track record at any given point of time.

i.,,Contractor is required to pass on the benefit arising out of GST, including seamless flow of Input Tax Credit, reduction in Tax Rate on inputs as well as final goods by way of reduction of price.

j.,,Contractor shall avail the most beneficial notifications, abatements, exemptions etc., if any, as applicable for the supplies under the Goods and Service Tax.

k.,,For the purposes of the above-mentioned requirements, the Contractor shall provide documents as may be necessary and shall allow inspection of the same to Client

l.,,Client shall charge GST over and above on the liquidated damages reduced from the price payable to the Contractor against supply of goods or services or both.(To be mentioned if applicable)

B.,,Income Tax as applicable shall be deducted at source from the invoice at the rate as applicable under Income Tax Act and Client shall issue TDS certificate for the same.

C.,,In case any contractor fails to meet the above statutory requirement, the same will be deducted from its bills directly.

11.,,Deductions and Penalties:</>

a.,,Client shall be entitled to recover from contractor's bills all cost, damages, expenses which may have to incur or become liable to incur as a result of contractor's negligence or any other action that may originate such cost, charges, expenses etc.
b.,,In case contractor's bill amount is not sufficient to cover such recovery amount the balance shall be deducted from any sum which may become due to contractor at any time thereafter under this or any other contract contractor may have with us. Should this sum also not be sufficient to cover the full amount recoverable, then we reserve our right to recover the same as remedies available under the law.
c.,,If there is any delay in completion of work on the part of the contractor and there is any statutory increase in duties / taxes / levies during the period of delay, in such cases the differential shall be on account of the contractor. In case of failure to execute the work within due date, Security Deposit, if any may be forfeited and Client reserves the rights to offload the same (complete/ partial) and get it done through other agencies at the cost and risk of the default contractor.

12.,,Withholding Payment :</>

The Client may withhold the whole or part of any payment for Works claimed by the Contractor, which in the opinion of Client is necessary to protect its interest from any loss occasioned on account of:

i.,,Defective work not remedied or guarantees not met.
ii.,,Claims filed against the Contractor.
iii.,,Failure by the Contractor to make payments for materials or labour employed by him.
iv.,,Damaged caused to another Contractor.
v.,,In-sufficient progress of Works.

When the grounds for withholding payment are rectified / addressed, the Client shall make payment of the amount due to Contractor.

13.,,Compliance with statutory rules and regulations</>

i.,,The statutory and legal conditions shall be applicable to all labour intensive jobs and the contractor shall have to strictly comply with all the clauses mentioned hereby:
ii.,,Labor Act: Contractor shall abide by all provision of contract labor (R<(>&<)>A) act 1970 and other applicable labor laws and rules made there under from time to time.
iii.,,Labor License: Before commencement of work, Contractor shall submit labor license (if applicable) from competent authority to the Client's P<(>&<)>A officer through Engineer-In charge.
iv.,,Gate Pass: Before commencement of work, Contractor has to arrange gate pass for his workmen from Client's P<(>&<)>A officer as per Client's standard norms.
v.,,PF registration: Before commencement of work, Contractor shall submit the Provident Fund Registration No. and ensure to recover provident fund amount from wages of all workmen and deposit to the Provident fund authorities and submit a copy of the same by 20th of every month to the Client's P<(>&<)>A officer through Engineer-In-charge. Incase, contractor fails to produce documentary evidence of PF recovery and deposition, Client will arrange to deposit the same to the Provident fund authorities with appropriate penalty recovering from the contractors bill.
vi.,,The contractor shall provide PF registration numbers & ESIC numbers for all its workers in the specified format to P<(>&<)>A department of Client at the time of applying for gate pass against this work order.
vii.,,Workmen Insurance: Before commencement of work, Contractor shall obtain Insurance policies under Group Personal Accident Policy & Workmen's Compensation Policy.
viii.,,Wage Payment: Payment to contractor's workmen shall be disbursed

on or before seventh day of the wage period in presence of the Client's P<(>&<)>A officer & Engineer-In charge or their duly authorized representative who shall certify on the payment sheet/register for fulfillment of provision of law.
ix.,,Bonus & Retrenchment: Contractor shall have to pay its workmen the bonus as per applicable act. Moreover, retrenchment benefits to workmen under Inter State Migrant act if being retrenched shall be paid by contractor.
x.,,Records, Register and Display Notices: Contractor must maintain statutory registers and records as applicable under various labour laws. Contractor must displays notices in front of his office in Hindi& English as required under various labour laws.
xi.,,Statutory Reimbursement: Any payment against statutory obligations, if applicable and specified explicitly under Client's scope, such as PF, ESIC, Insurance etc. shall be reimbursed at actual by Client on producing documentary evidence by the contractor.
xii.,,Work Permit: Work on any equipment or in any area should be started only after ensuring valid permit. Before starting the work, contractor shall submit detailed work program, milestone of different activities, safety & quality plan and any other relevant documents required for the work to the Engineer-in-charge for his approval, after which work shall be started as per the approved program.
xiii.,,Tools & Tackles: Contractor will have to produce fitness test certificate of all lifting tools and tackles being used by him from any outside competent person.
xiv.,,Vehicle: All the vehicles (except used by specific person) to be deployed by contactor shall be fit for use in all respect.The Vehicle must be commercially registered with the transport authority and must carry all statutory documents (valid Driving license, Insurance policy, P.U.C. certificate etc.). The driver should not be deployed for more than 12 hours and vehicle must follow the safety guidelines as defined by the company.
xv.,,Labor Health & Hygiene: Contractor shall have to ensure periodical cleaning and disposal of waste from workers residential colonies. Contractor must ensure the hygiene, potable drinking water and regular housekeeping in his workers colony. Non compliance of the same would be viewed seriously by the company and suitable action would be initiated to ensure proper living conditions. During summer this area becomes very hot and prone to the cases of dehydration. Contractor must ensure the provision of ORS drink to all the workers during summer.
xvi.,,Contractor is the legal employer of the manpower engaged by him and shall comply with all statutory rules and regulations, including but not limited to contract labour act, Workmen's Compensation Act, Employees Insurance Act, Personal Accident Insurance, Provident Fund act and any other laws, rules and regulations etc., that may be applicable to this type of work including any licenses like labour license etc. that may be required to be obtained by the contractors.
xvii.,,Contractor shall indemnify and keep us indemnified against all such cost, including and not limited to taxes & duties damages, penalties, fines punitive measures, lawyer fees, taxes duties etc. of whatever nature due to non-compliance with respect to the applicable statutory laws, rules, notification etc.
xviii.,,In the event of breach of statutory laws & regulation the contractor, the Client reserves the right to terminate the contract and no payment shall become due and payable to the contractor.
xix.,,Child Labour: Contractor in any circumstances shall not engage Child Labour (below 18 years of age) for any activities related to Client.

14.,,Alternations, additions & omissions, and variations of qty. during execution:</>
The quantities as mentioned in the Bill of quantities (BOQ) are estimated quantities of the work and may vary over a range of +/- 20%. The unit price shall remain fixed; however the contract price shall be revised accordingly.
a),,Variations: Client shall have the right to make any variations in quality or quantity of the Work or any part thereof that may in Client's judgment are necessary/required for the completeness of Work and for any other reasons that are desirable/required, Client shall have the right to order the Contractor to do any of the following:

i.,,Increase or decrease in quantity.
ii.,,Omit any such work/works
iii.,,Change in character or quality or kind of any such work/works.

iv.,,Change the levels, lines, Position and dimensions of any part of the work/works.
v.,,Execute additional work of any kind necessary for completion of the work/works and no such variation shall in any way vitiate or invalidate the Contract.

b),,Valuations of Variations: Client shall determine the amount (if any) to be added or deducted to/from contract price in respect of any additional work done or work omitted. All such work shall be valued at the rates set out in the Contract if in the opinion of the Client the same shall be applicable. If in the opinion of the Client the Contract doesn't contain any rates applicable to such additional, altered, omitted or substituted items, then the rates shall be fixed by the Client for such items by deriving the rates from the analogous item, if any , in the Contract. In the absence of analogous items, the rates shall be fixed by the Client on the basis of basic rates and norms available in the standard schedules/analysis of rates adopting approved rates in the documents and the Contractor shall submit the analysis on these lines. Where the particular item of work has not been included in BOQ and Schedule of Rates or an analogues rate can't be computed or a reasonable rate also cannot be determined by the Client, then Client may derive the rates based on prevailing/actual market rates. The cost element on account of provisions of profit including Overhead shall not exceed ten (10%) of the direct cost.

15.,,Change of Name</>

At any stage after Contracting, the Client shall deal with the Contractor only in the name and at the address under which the Contractor has submitted the Bid. All the liabilities / responsibilities for the execution of the Contract shall be those of the Contractor and in no circumstances he shall be relieved of any obligations under the Contract. Any change in name/constitution for reasons whatsoever, the Contractor shall intimate such change to the Client in writing within one Week. Such change will not relieve the Contractor from its obligations under this Contract.
16.,,Mode of Communication:</>

All communication to be given to either Party shall be given to the correspondence addresses by airmail/ e-mail/ fax. All notices in which rights and/or obligations of either Party are involved shall be given by registered airmail or through courier of international repute, and such notices shall be deemed to have been issue seven (7) Days after their dispatch but shall not be deemed as accepted unless especially consent is received in writing.
Either Party may change its address by giving prior notice to the other Party in the manner provided for herein.

17.,,Housekeeping:</>

Good House Keeping must be practiced by the Contractor personnel at all times while within the plant. During and after completion of the work, they are to ensure that their work area is kept clean and tidy.
Materials and equipment should be stored in a safe and orderly manner so that they will not block exits to roads, buildings, aisles, passage and approach to fire fighting equipment such as fire hydrants, fire hose and fire extinguishers or area where emergency safety showers, electrical switch panels and switch rooms are located. No bill shall be certified by site Engineer without checking of proper housekeeping by Contractor otherwise it will treated as violation of norm & suitable action will be taken.

18.,,Insurance</>

During the course of execution of the Contract, the Contractor at its own cost shall procure and maintain the following types of insurance coverage, as per State and Central Govt. Rules and regulations.

i.,,Workmen's Compensation Insurance: Covering all the temporary/ permanent workers employed by the Contractor as well as their sub-contractors.
ii.,, Transit Insurance: All the materials, which are in the scope of Contractor, required for the execution of the Contract to be insured under transit insurance policy on All Risk basis.

iii.,,Third Party Liability Insurance: Covering legal liability to third parties for bodily injury or damage to property arising out during the execution of the Contract.
iv.,,Contractor's Plant & Machinery Insurance: Construction Equipment/Materials deployed at the Site by the Contractor to be insured appropriately by the Contractor. The policy to be extended to cover thi event and aggregate during the execution of the Contract for the amount to be mutually discussed and agreed with the successful Bidder. The coverage in all respect of all the policies will be subject to annual review and adjustment to ensure adequacy of the coverage. The Contractor ,as on when required by the Client, shall furnish to the Client copies of all the policies of insurance along with the policy schedules, receipt for premium payment and related connected documents."

19.,,Patent Rights and Royalties</>

i.,,Royalties and fees for patents covering materials, articles, apparatus, devices, equipments or processes in the scope of Contractor and used in the Works, by the Contractor shall be deemed to have been included in the Contract Price. The Contractor shall satisfy all demands that may be made at any time for such royalties or fees and he alone shall be liable for any damages or claims for patent infringements and shall keep the Client fully indemnified in that regard. The Contractor shall, at its own cost and expense, defend all suits or proceedings that may be instituted for alleged infringement of any patents involved in the Works, and, in case of an award of damages, the Contractor shall pay for such award. In the event of any suit or other proceedings instituted against the Client, the same shall be defended by the Client and/or Contractor at the cost and expense of the Contractor including the amount of award if any.
ii.,,The Contractor shall indemnify the Client, its representatives or employee of the Client against any action, claim or proceedings relating to infringement or use of any patent or design or any alleged patent or design rights and shall pay any royalties or other charges which may be payable in respect of any article or material or part thereof included in the Contract. In the event of any claim being made or action being brought against the Client or any agent, servant or employee of the Client in respect of any such matters as aforesaid, the Contractor shall immediately be notified thereof. Provided that such indemnity shall not apply when such infringement has taken place in complying with the specific directions issued by the Client; but the Contractor shall pay any royalties or other charges, payable in respect of any such use, the amount so paid being reimbursed to the Contractor only if the use was the result of any drawings and/or specifications issued after submission of the Tender.
iii.,,In addition the Contractor shall perform/submit at its own cost such tests/samples as may be required by the Client out of the materials issued by the Client, except for the costs of materials used in such tests/samples.

20.,,Materials Obtained from Excavation</>

Materials of any kind obtained from excavation on the Site shall remain the property of the Client and shall be disposed of as the Client may direct.
21.,,Treasure, Relic, Monuments & Fossils, etc.</>

All fossils, coins, articles of value of antiquity and structures and other remains or things of geological or archaeological interest discovered on the Site shall be the absolute property of the Client and the Contractor shall take reasonable precautions to prevent its workmen or any other person from removing or damaging any such article or thing and shall immediately upon discovery thereof and before removal acquaint the Client with such discovery and carry out the Client's directions as to the disposal of the same.

22.,,Right to Audit & Background Checking</>

Company or its authorised representative shall have the right to access, with prior intimation of 24 hours, at all reasonable time, records, correspondences and like, whether stored on paper or electronically, which may have a bearing with the performance of this contract. Company or its authorised representative shall be provided with sufficient access to such data to satisfy themselves of the accuracy and validity

of any amount due/payable under this contract. If any costs are in dispute and such free access is refused/denied, then the Company has the right to determine the amounts due/payable as it deems fit. If payment or part thereof to such amounts due/payable has already been made then the Company shall be entitled to claim the same from Contractor without prejudice to set off same from any other payments payable to the contractor under other contract(s). The above right to audit shall continue for a period of three years after the termination of the contract. Contractor shall also cause its sub-contractor(s)to give to the Company the audit rights set out in this Clause.

Client shall have all the right to do the Background checking of contractor before award of contract or during currency of contract.

23.,,Manpower Competency:</>

a.,,In addition to the site-in-charge, the Contractor has to ensure supervision of work in progress by deploying atleast one technically competent site supervisor. The site-in-charge of the Contractor shall authorize his representative to collect/return materials from/to Client as per requirement of work.

b.,,The job is of skilled nature and manpower with suitable requisite skill & experience only shall be permitted to be deployed. Contractor has to ensure that the credentials and certificates of the workmen deployed are submitted to Client and shall be vetted by them before the start of work.

24.,,Defence of Suits</>

If any action in Court is brought against the Client or an officer or agent of the Client before any court Tribunal or any other Authority, for any act and/or any failure, omission or neglect on the part of the Contractor, its agents, representatives or its Sub-Contractors to perform any acts, matters, covenants or things under the Contract, or for damage or injury caused by the alleged act, omission or negligence on the part of the Contractor, its agents, representatives or its Sub-Contractors, or in connection with any claim of Sub-Contractors, Workmen, Suppliers or Employees, the Contractor shall in all such cases indemnify and keep the Client and/or its representative harmless/indemnified from all losses, claims damages or expenses arising out of such action.

25.,,Limitation Of Liabilities</>

i.,,Neither the Client nor the Contractor shall be liable to each other, whether in Contract, tort, or otherwise, for any indirect or consequential loss, provided that this exclusion shall not apply to any obligation of the Contractor to pay Liquidated Damages to the Client, and;
ii.,,Except in the case of gross neglect or wilful default or wilful misconduct, the aggregate liability of the Contractor to the Client under the Contract shall not exceed the Contract Price (including taxes & duties), provided that the limitation shall not apply to any obligation of the Contractor to repair or replace defective Equipment or to indemnify the Client with respect to patent infringement.

26.,,No delay interest:</>

The Contractor shall not be entitled to claim any interest on the delayed payments.

27.,,Escalation</>

No escalation on any account shall be admissible for execution of the work. The price quoted by the Contractor shall be considered to be final, firm and binding to the Contractor during entire tenure of the contract including extended periods if any in case if not written separately any where in work order.

28.,,Code of Conduct</>

Under this agreement Contractors are obligated to conduct all business

activities in a legal and ethical manner with utmost integrity, in line with the Client's Code of Conduct (COC), If there is a violation of the COC by the Contractor or its employees/representatives, especially in the nature of any financial irregularities to gain undue advantage, Client reserves the right to:

i.,,Terminate this contract; and /or
ii.,,Blacklist the Contractor; and/or
iii.,,Seek restitution, including deduction of the amounts due to Contractor, encashment of BG etc; and/or
iv.,,Report irregularities to law enforcement agencies; However, prior to taking any action under (i) to (iii) above Client shall issue a notice to the Contractor and seek his explanation with respect to violation of the COC and if no reply is received within seven days from the date of issuance of notice or the reply tendered by the Contractor is found to be unsatisfactory, then Client shall be entitled to forthwith take action under this clause. The above clause is in addition to and not in derogation of any other clause in this agreement.
v.,,You shall ensure that you will follow all rules and regulations and timings prevailing at our Client plant as amended from time to time and obey all instructions as are issued by Engineer -in-Charge arising from your scope of work / exigencies of work. You shall ensue that your staff maintains maximum efficiency and decorum and discharge their duties in a manner commensurate with our culture. Under no circumstances indiscipline or involving in any act, which in our opinion, will cause disturbance, industrial relations problems, reduction of production / plant efficiency, indiscipline immorality etc. The company in such cases, reserve the right to expel such person(s) of your staff without notifying or referring to you. In case you are advised to take such an action, you shall promptly replace such person(s) and ensure the work is not affected in any way. Under no circumstances your staff will be construed to be our employees directly to which you agree.
vi.,,Contractor shall ensure that the entity should not indulge itself in Cartelization while bidding and follow fair dealing during the entire duration of contract.

29.,,Bribes, Commission etc.</>

Any bribe, commission, gift or advantage given, promised or offered by or on behalf of the Contractor or its partners agent or servant or any one on its or on their behalf, to any officer, servant, representative or agents of the Client or any person on its or their behalf, in relation to the obtaining or to the execution of this or any other Contract with the Client, shall in addition to any criminal liability which he may incur, subject the Contractor to the cancellation of this and all other Contracts and also to payment of any loss or damages resulting from any such cancellation to the Client. The Client shall then be entitled to deduct the amounts otherwise due to the Contractor under this or any other Contract. Any question or dispute as to the commitment of any offence under the present clause shall be settled by the Client in such manner and on such evidence or information as he shall think fit and sufficient and its decision shall be final and conclusive. The contractor will abide and compliance with the Client Code of Conduct.

30.,,Force Majeure :</>

"Event of Force Majeure" means any of the events or circumstances, or combination of events and circumstances, referred to below and which adversely affects the performance of either Party (the affected Party) of its obligations under this Agreement and which are beyond the reasonable control of the affected Party and which the affected Party could not have prevented by the prudent utility practices or by exercise of reasonable skill and care:-
a),,Act of God, epidemic, famine, earthquake, quarantine restrictions, flood, tsunami, meteorites, War, invasion, hostilities by enemy Country. Upon the occurrence of such event/s or circumstance/the party which has been prevented from performing its obligation under the Contract by Force Majeure shall immediately but not later than 72 (Seventy two) hours, give a notice to the other Party giving full particulars and satisfactory evidence of such event/s or circumstance/s and shall specify the obligations, the performance of which is or will be prevented. If such notice is not issued then the party claiming force majeure even shall not be entitled to be executed from performing its

obligation as provided under the contract.
b),,The Party shall having given notice, be excused performance of such obligation for so long as and only to the extent such Force Majeure prevents it from performing them. Each Party shall at all times use all reasonable endeavours to minimize any delay in the performance of obligation under the Contract as a result of Force Majeure. The cost and loss sustained by the either party in this respect shall be borne by the respective parties.
c),,The affected Party shall give notice to the other Party when it ceases to be affected by the Force Majeure.
d),,The date of completion of Work will be extended by a reasonable time by the Client considering the impact of such Force Majeure on the completion schedule and the decision of the Client in this respect shall be final and binding.
e),,In case of any loss/damage due to above Force Majeure conditions which are insurable under various insurance policies specified in clause of this GCC, the Contractor shall be responsible for making good such losses/damages at its own cost and expense.
f),,If deliveries of bought out items and/or works to be executed by the Contractor are suspended by Force Majeure conditions lasting for more than 2 (two) months, the Client shall have the option to terminate the Contract or re-negotiate the contract provisions.
31.,,Indemnity Clause:</>

The Contractor shall, except if and so far as the Contract provides otherwise, indemnify the Client against all losses and claims in respect of injuries or damage to any person, material or plant, or damage to any property whatsoever but not limited to third party damages which may arise out of or in consequence of the execution of the Works, and against all claims, proceedings, damages, costs, charges and expenses whatsoever in relation thereto.

32.,,Termination of the contract:</>

In case Client observes that sufficient efforts are not put in by contractor to expediting the work to complete the same in stipulated time period as above, Client shall be free to engage any other Contractor/Resources to speed up the work and debit the cost to contractor's account. Client also reserves the right of terminating the contract at any point of time without assigning any reasons what so ever.

33.,,Short Closure of Contract</>

The Client reserves the right to terminate/short-close the Contract in part or in full due to reasons other than those mentioned above. The Client shall in such an event give fifteen (15) days' notice in writing to the Contractor of its decision to do so. The Contractor upon receipt of such notice shall discontinue the Work on the date and to the extent specified in the notice, make all reasonable efforts to obtain cancellation of all orders and contracts to the Client, stop all further sub-contracting or purchasing activity related to the work terminated/foreclosed/suspended, and assist the Client in maintenance, protection, and disposition of the Works acquired under the Contract by the Client. If the Contract shall be terminated the Contractor shall be paid by the Client for all completed work, executed prior to the date of termination at the rates and prices provided in the Contract. If no rates and prices are provided in the Contract, the amount shall be as certified by the Client and will be commensurate with the proportion of work performed. Save and except the above, no compensation shall be payable to the Contractor by the Client.

34.,,Suspension of Contract</>
The Client reserves the right to temporarily suspend and reinstate execution of the whole or any part of the Contract without invalidating the provision of the Contract. The Client will issue orders for suspension or reinstatement of the Contract to the Contractor in writing. The time for completion of the Works will be extended for a period equal to duration of suspension. In case suspension of work exceeds 90 days, any necessary and demonstrable cost incurred by the Contractor as a result of such suspension of the Works will be paid by the Client, provided such costs are substantiated to the satisfaction of the Client. The Client shall not be responsible for any liabilities if suspension or delay is due to some default on the part of the Contractor

or its Sub-Contractor. In case of suspension of entire contract, ordered in writing by Client, for a period of more than three months, the Client and the Contractor shall jointly consider and decide to terminate the Contract. Provided that if the Contract is terminated under this clause then Contractor shall not be entitled to claim any compensation from the Client save and except all completed work, executed prior to the date of termination at the rates and prices provided in the Contract.

35.,,Non-Disclosure Terms</>

i.,,The Contractor shall not, without the Client's prior written consent, disclose the Contract, or any provision thereof, or any specification, plan, drawing, pattern, sample or information furnished by or on behalf of the Client in connection therewith, to any person other than a person employed by the Contractor in the performance of the Contract. Disclosure to any such employed person shall be made in confidence and shall extend only so far as may be necessary for purposes of such performance.

ii.,,The Contractor shall not, without the Client's prior written consent, make use of any document or information enumerated in various Contract Documents except for purpose of performing the Contract.
36.,,Co Branding/ White Labeling-</>

Contractor should not use Logo or Brand image of JSPOL without taking consent from Contract Cell of respective location. If it is found guilty of this offence, legal action shall be initiated against the contractor.

3.,,Contractor must maintain good housekeeping; protect air, water and land.
4.,,Contractor shall ensure proper use and storage of materials and proper disposal of wastes in line with applicable laws.
5.,,Contractor shall not indulge in any activity which can cause pollution and has to work in close co-ordination with Environment Management Department at the concerned location. .
6.,,Contractor shall not cut any tree without permission from EMD.
7.,,Contractor shall be deemed liable for any violation/ non-compliance to applicable Environment norm as per Client's Environment policy at their working location.
8.,,All vehicles of contractor entering and leaving the premises shall follow the company's standard environment protection protocol.

Annexure -II</>
----------</>
General Health & Safety Conditions for Contractors:</>

1. Agreement:
Contractor#s acceptance of the work order in writing shall constitute contract between him and Jindal Steel. If acceptance/ comments (if any) is not received from contractor, within one week from the date of this order, it will be considered that the various terms and conditions indicated in the order are acceptable to the contractor. The Contract cell shall involve OHS - Dept. during contractor selection through contractor#s evaluation feedback. The prime or main contractor is responsible for the activities of their employees and liable for all acts, errors, and omissions of their subcontractors.

2. Safety Clauses:

1. The contractor shall visit the site and understand safety hazards and safety measures to be taken while executing jobs as per the scope of work and the actual site conditions before submitting the quotation.

2. Contractor shall attend the Pre-Bid meeting / Pre-Award meeting conducted by Jindal Steel prior to bid / taking up the contract to understand & prepare the plan required to accomplish the work safely. Contractors should also give declaration that they will follow the safety norms and execute the job safely. Example of higher risk jobs are Working at height, Hot work, Positive isolation (all types), Confined space entry, Electrical work, Lifting / Rigging / Hoisting activity, Civil work, Operating heavy equipment, Shoring, Excavation, Trenching, Line breaking, working in proximity to hazardous chemicals including gases, work conducted in high and low temperature environments, working in underground and surface mines, demolition and renovation work, working within or in proximity to HHOs, transportation of goods and materials etc.

3. The contractor shall fill the pre-qualification sheet (PQ) which will be used as a baseline to evaluate the contractor. Based on the pre- and post-evaluation score, contractors will be ratied. The contractor must rigorously follow the requirements of the Jindal Steel 6-step Contractor Safety Management process throughout and must not deviate from the same.

4. The contractor shall undertake full responsibility for safe execution of job at work site and safety of his personnel from the time he enters the premises of Jindal Steel till the time he leaves the works gates after his duty. The Contractor shall comply with all safety aspects of Jindal Steel Safety standards, Life Saving Rules, and Codes & Standards referred to in the technical specification. The contractor shall abide by and shall ensure 100% compliance to various statutory regulations and, legal requirements of the Country and the State, and the safety rules and regulations of Jindal Steel, that are in force from time to time. In this regard, and / or as required by the site engineer, in respect of all staff and labor engaged for the execution of the work at work site, the contractor shall provide all the facilities in connection therewith. By accepting this work order, the contractor undertakes that he is fully aware of the safety norms and requirement fors the job / services to be executed by it and shall take all necessary steps in that regard.

5. The contractor shall make himself fully aware of all the workplace safety hazards, but not limiting to, for e.g., the presence of poisonous gases, frequent passage of loco and ladle cars, simultaneous activities carried out by various agencies in a congested areas etc. and plan and to execute work accordingly.

6. A proper register / document containing names and designation of workers to be maintained by contractor for the workmen trained by Jindal Steel. This register shall be kept updated and made available during audits.

7. The contractor shall depute adequate number of supervisors for the complete supervision of the jobs. The contractor shall depute a "key person" from his organization who shall be fully responsible for safety of his persons and ensure that all safety practices are adhered to during the execution of the work. The contractor shall engage adequate number of Highly Skilled / Skilled / Semiskilled / Unskilled laborers and supervisors on the job to execute the work in a safe manner. The contractor shall report to the shift in-charge at the start and end of the job. He shall ensure that permits to work shall be taken from the shift in charge before starting any job. All work shall be carried out as per the instructions of the shift in charge. The supervisors / site engineers of the contractors shall regularly undergo the relevant safety training / refreshers on contract management at Navin Jindal Training Center as may be applicable. No person shall be deployed at the workplace / site unless they have undergone the safety induction training. The safety card if applicable will be issued by training center and it should be available with the workmen at all the times and the same shall be produced on

demand.

8. The contractor shall maintain the workplace in good & clean condition and shall ensure good housekeeping in and around the work area at all times # and leave the site free from debris and unwanted materials after the completion of the job.

9. The names and biodata of all employees of contractors including trained, skilled, competent, qualified supervisors & key people shall be submitted to Jindal Steel for review and acceptance. Contractor shall promptly replace any supervisors or workmen that are found unsatisfactory but shall not replace any person during the duration of the work without concurrence of Jindal Steel. Jindal Steel reserves the right to deny entry into its facility to any contract person or supervisors deems unfit, unsuitable or unwilling to comply with any safety & Health requirement as noted here or in work order.

10. Safety officer of contractor shall attend the safety meetings conducted at site by Jindal Steel. He will have to keep himself as well as his workmen informed about the points discussed in the meetings and will have to implement the same at workplace / site to ensure the safe execution of the job.

11. Contractor must conduct a weekly review on all safety aspects. This shall include (as a minimum) current safety audit results, injury / illness summary, safety meeting(s) summary, hazard reviews (HIRA / JSA) of upcoming work, incident, injury and near-miss investigations, compliance to safety standards.

12. Contractor shall take all necessary safety precautions during the execution of the job to prevent any mishap, accident, property loss etc. Contractor shall primarily be responsible for any incident or injury that may happen to any personnel engaged in execution of work. Contractor shall bear all expenses towards the payment / compensation against any loss or damage to property, personnel injury etc., during execution of the work and shall be liable to take care of associated legal obligations.

13. Contractors shall provide suitable transportation (i.e. safe enclosed vehicles) for the safe commute of their personnel to and from the work site.

14. Further to reiterate that:
a) Contractors# and subcontractors# responsibilities shall also include:
i. Ensuring work areas and activity under their control do not place their employees, Jindal Steel employees, or others at risk of injury

ii. Ensuring that all tools, tackles & equipment brought onto or stored at Jindal Steel property for the execution of the job are tested and certified fit for use by relevant applicable regulatory authorities, industry trade associations, consensus based best practice industry groups (e.g. Competent Persons, NFPA), and OEMs. List of such tools, tackles & equipment shall be maintained, kept updated and shared with Jindal Steel as required
iii. Ensuring equipment and tools are stored / maintained in a safe condition per OEM, Industry norm, or other relevant authority requirements
iv. Maintaining Jindal Steel's tools, tackles and equipment loaned to contractors for use on site in safe working order / condition as per OEM, industry norm, or other relevant requirements and associated test certificates shall be safely stored.
v. Establishing safe systems of work with competent supervision to ensure the work does not expose individuals to injury or Jindal Steel assets to harm.
vi. Conducting routine health and safety audits, inspections, and maintaining oversight of all assigned work areas by competent supervisors and / or site safety supervisors to ensure compliance with all Jindal Steel safety requirements, standards, guidelines, etc.
vii. Identifying and controlling hazards that are created by the contractor's work activities
viii. Providing appropriate personal protective equipment (PPE) which meets the IS / EN standard and are approved by Jindal Steel for the tasks undertaken by their employees and ensuring 100% compliance to use of such PPEs.
ix. Ensuring health and safety training is provided to its employees, as appropriate for their assigned tasks.
x. Liaising with the Jindal Steel contract administrator and contract owner to ensure the effective execution of all the provisions outlined in this standard and for the general communication of health and safety matters.
xi. Participating, cooperating and aiding Jindal Steel in carrying out investigations into all incidents in their work area.
xii. Maintaining the necessary insurance coverage required by Jindal Steel and applicable local regulations.
xiii. Establishing and maintaining an effective safety, health & environmental program in accordance with applicable federal, state and local regulations.
xiv. Deploying competent supervisors and site safety personnel / professionals to monitor, inspect, and audit the safety requirements of their activities.
xv. Not allowing any contract employees to work beyond statute (local factory rules or regulation) and / or legally prescribed overtime duration in a week. The contractor shall comply with industry norms and applicable local laws on working hours. Overtime shall never be a demanded.
xvi. Not engaging contract employees who are found medically unfit.
xvii. Not appointing / utilizing contract employees of other contractors for their job without prior approval of the previous contractor and Jindal Steel line managers / contract owner.

b. Responsibility of contractor supervisors:
i. The Contractor's Supervisor is the connection between Jindal Steel management and the contractors.
ii. In collaboration with the site safety officer, he / she shall coordinate the work of his company employees on site. He / She shall be responsible and accountable for the quality and safety of all their staff at work / on site.
iii. The contractor's supervisor shall review the units' safety requirements with his employees prior to the beginning of each job. Documentation of this review shall be properly maintained and made available during audits.
iv. He / She should ensure that daily assignment of jobs to his workers, and delegate specific tasks related to inspection of tools, equipment and PPE, and correct all unsafe conditions, report incidents and near misses, ensure work area housekeeping, and support in carrying out contractor safety field audits.

c. Responsibility of contractor's site safety supervisors:

i. Site safety supervisors shall carry out daily safety audits and inspections of tools, tackles, equipment and PPEs.
ii. He / she shall identify and help in correcting the unsafe conditions at site with help of contractor's supervisors. He / she will ensure toolbox talks and mass meetings are conducted regularly.

iii. He / she will ensure reporting of all incidents and near miss and participate in incident investigations
iv. Site safety supervisors will help in developing SOP for the job and carry out safety audit to check its compliance.
v. Site safety supervisors shall be deputed for all high-risk jobs as per the demand of contract owners and Jindal Steel personnel supervising the job. The contractor shall be aware of rules, regulations and procedures of the Jindal Steel progressive consequence management standard. Any safety non-compliance by Contractors shall be dealt with as per Jindal Steel progressive consequence management standard. Further, these shall impact the performance rating of the contractor and have a bearing on future work / bids

3. Right to Audit for Safe work execution:

Jindal Steel shall have the right, without contacting the contractor, to immediately stop any work that, in the opinion of Jindal Steel, has fatal or serious injury potential. Jindal Steel will immediately report the situation to contractor for correction. Work shall remain stopped until it is made safe and Jindal Steel is not liable to pay any penalty for this. Disciplinary action against the Contractor for repeated safety violations will be guided by Jindal Steel progressive consequence management standard and it will be binding to the Contractor and their employees.

4. Manpower Competency:

a. In addition to the site-in-charge, the Contractor shall ensure supervision of work in progress by deploying at least one technically competent site supervisor. The site-in-charge of the Contractor shall authorize his representative to collect / return materials from / to Jindal Steel as per requirement of work.
b. Contractor shall make provisions for the required manpower with appropriate competencies as applicable. Failing this, it will be treated as non-compliance and executing department shall take appropriate action as per Jindal Steel rules on contracting company / person.
c. For job requiring specific skills, manpower with suitable requisite skill & experience only shall be deployed. Contractor shall ensure that the credentials and certificates of the workmen deployed are submitted to Jindal Steel and shall be vetted by them before the start of work.

5. Termination of the Contract:
In case Jindal Steel observes that sufficient efforts are not put in by the contractor to ensure safe work withing the stipulated time, Jindal Steel shall be free to engage any other contractor / resources as appropriate and debit the cost to contractor#s account. Jindal Steel also reserves the right to terminate the contract at any point of time without assigning any reasons whatsoever.

6. Short Closure of Contract:
Jindal Steel reserves the right to terminate / short-close the Contract in part or in full due to reasons other than those mentioned above. The Jindal Steel shall, in such an event, give fifteen (15) days# notice in writing to the Contractor of its decision to do so. The Contractor upon receipt of such notice shall discontinue the Work on the date and to the extent specified in the notice, make all reasonable efforts to obtain cancellation of all orders and contracts to Jindal Steel, stop all further sub-contracting or purchasing activity related to the work terminated / foreclosed / suspended, and assist Jindal Steel in maintenance, protection, and disposition of the Works acquired under the Contract by Jindal Steel. If the Contract shall be terminated the Contractor shall be paid by Jindal Steel for all completed work, executed prior to the date of termination at the rates and prices provided in the Contract. If no rates and prices are provided in the Contract, the amount shall be as certified by Jindal Steel and will be commensurate with the proportion of work performed. Save and except the above, no compensation shall be payable to the Contractor by the Jindal Steel.

Contractors engaged for carrying out activities for Jindal Steel defined herein as #Jindal Steel# shall adopt and comply with the below-mentioned general health & safety conditions:

This deals with the precautions to be taken by the personnel for operation and maintenance activities in running plants / departments / units and construction activities to be performed under the ambit of Jindal Steel and its subsidiary-controlled premises. This is only a guidance to the Contractor. However, the Contractor shall comply with the "Safety & Good Engineering Practices" as set forth in the Indian Safety Laws, Regulations and ordinances as well as the established safety rules and practices and the Indian Factories Act / Rules, the Indian Electricity Act/Rules, Indian Explosives Act/Rules, E.S.I Act, Workmen Compensation Act, Payment of Wages Act, Contact Labour (Regulation & Abolition) Act and the other relevant rules of the State and of the District where the site of the work is situated. The Contractor shall also follow the concerned engineer / officer guidelines for personnel safety given during the work and give priority to safety of personnel.

Safety Kick-off Meeting: Prior to commencement of any critical / high risk tasks on site, the Contractor shall be routed to OHS # Dept. through the Contract Cell to review the deployment of manpower & equipment and the availability of control measures for the critical tasks proactively, to avoid any safety breaches during the job.

Accident Prevention Plan: Contractor shall submit an accident prevention plan to Jindal Steel which shall include safety plan, safety policy, safety organization, standard work procedures, method statement, risk assessment processes, training and safety monitoring, systems. Such plans shall be suitable to the nature of contract awarded and shall be validated jointly by Engineer in-charge in consultation with Safety Head and shall be coordinated by Contract Cell. For the purpose, contractor shall arrange a presentation before contract cell, engineer in-charge and safety head.

Declaration of past safety records: Contractor shall, at a minimum, submit to the Contract Cell, past 5-yr. safety records including incident history and investigation reports where he / his personnel were involved. This will in turn be forwarded to the Safety department for review. Contractor shall also submit his incident prevention plan to avoid similar incidents during execution of contracts awarded by Jindal Steel.

Safety Organization: Contractor shall depute following personnel on permanent basis to ensure the compliance to Jindal Steel safety requirements:

Safety Officer: One qualified safety officer for up to 50 workers employed, and 1 extra safety officer per every additional 50 workers. Such safety officer shall mandatorily have
i) Qualification of Diploma in Industrial Safety from recognized technical board of education / State Council of Technical Education Board (RLI / CLI).
ii) Possess recognized degree in any branch of engineering or technology and has practical experience of minimum 2 years in similar activity or
iii) A recognized degree in physics or chemistry (or in pure science) and has practical experience of minimum 5 years in similar activity or
iv) A recognized diploma in any branch of engineering or technology and has practical experience of minimum 6 years in similar activity
v) Has adequate knowledge of the language spoken by majority of the workers in the region in which the factory where he is to be appointed is situated

Qualification, skills and experience shall be verified by HOD (OHS) & HR&ES (if required) for meeting legal requirements as appropriate

Approval of Safety Officer: After award of the job, the contractor shall submit relevant CVs along with all credentials (Academic & Experience) to Head (OHS) through the contract cell for review and approval before commencement of work.

Equipment, Machinery and Tools: Contractor shall deploy certified, healthy and fit to use equipment & machinery required to execute the contract. Internal maintenance system shall be in place to ensure that such equipment and machinery are maintained in good working conditions and safe for use by workers in all respects. Some commonly safe practices to be followed mandatorily are:

#Heavy equipment (Truck, Trailor, Hyva, Payloader, Bus, Excavators, etc. shall not be more than 10 years old and fitness of such equipment shall be certified by Central Maintenance Department before first use and every 3 months thereafter.
#Cranes, lifting tools & tackles and pressure vessels shall have a valid test certification from competent authority. A list of such equipment and valid test certificates shall be submitted to respective engineers in charge prior to first use and thereafter at the time of every renewal.
#Manual hand tools and mechanical tools shall be in good working condition and conform to applicable standards. Handmade & temporary tools shall not be permitted to use.
#Contractor shall submit List of Lifting Tools & Tackles, Earth Moving equipment and Cranes before commencing their task (against respective Work Order) for safety inspection and periodical audit purposes. All such equipment shall have fitness certificate from the competent agency or Jindal Steel and its subsidiaries# requirements. Power driven hand tools/equipment shall also be inspected and take clearance from user#s electrical engineer / concerned engineers# prior inspection by OHS representative of Jindal Steel. Similarly, cranes / earth moving equipment shall be inspected by representatives of Central Maintenance Department (CMD) and OHS representatives of Jindal Steel.

#Hydra is strictly restricted in Jindal Steel premises however contractor shall deploy TRX / Farana / Escort F-15 for lifting activity, but above approved equipment shall not be used for shifting purposes.
#Portable power tools both electrical and pneumatic (e.g. welding machine, grinding machine, buffing machines, cutters, portable lamps, or any other equipment that require electrical connection through a plug top) shall be subject to contractor#s internal inspection system and certification by concerned engineer in-charge or his team. A list shall be shared to OHS-Dept. for periodical safety audit.
#Contractor#s mobile equipment should possess valid and current PUC certificate, vehicle Registration paper, Insurance and vehicle fitness certificates before obtaining gate Pass.
#Contractor/agency shall submit the following papers / certificates before obtaining gate pass of vehicles.
Registration paper of the vehicle
PUC Certificate
Valid insurance paper
Vehicle fitness certificate
Contractor / agency shall also submit renewed / new certificates on expiry of PUC, insurance and fitness certificates in a timely manner

Work Permit System: Contractor shall comply with Jindal Steel permit to work system. All non-routine and hazardous activities shall be carried out only after obtaining a valid work permit and compliance with the safety working conditions stipulated in the work permit documents. Such activities shall be carried out under strict supervision

Personal Protective Equipment: The contractor and its employees will use all prescribed Personal Protective Equipment (such as safety shoes, helmets, hand gloves, safety belts, safety goggles, gas masks and all other safety appliances etc.) while working on Jindal Steel plant premises. Personal Protective Equipment (PPEs), Tools & Tackles and equipment must be as per company's standard and IS/EN approved. These equipment, tools & tackles should be fit to use. Contractor shall submit to job executing department copies of all relevant documents of safety equipment inspections & test certificate (e.g. test certificates of chain block etc.) for acceptance by executing department. The contractor shall ensure that these necessary safety appliances are being used by his employees and workers working at site without which the employees and the workers shall not be permitted to work. The cost of the PPEs, Tools & tackles and equipment will be borne by the contractor and the same shall not be recovered from the employee. Any violation found will be dealt with firmly by Jindal Steel. Jindal Steel gives priority to prevent and protect exposure of workers from hazards / risks they are likely to be exposed to, during their day-to-day activity. Contractors shall ensure the provision of approved PPE only. The personal protective equipment provided to workers shall be suitable for the work he is engaged in and ensure complete protection from the hazards / risks. Safety helmet, safety goggle, respirator dust masks in dusty area, hand gloves, ear protection in high noise areas, safety shoes and complete body protection with cotton / fire retardant clothing having high visibility radium stickers are mandatory protections to be provided.

Mandatory PPEs for the Common Plant Premises:
Safety helmet (FRP for hot zone / plant area and HDPE type standard helmet only for open place or construction activities), Safety Shoes (Thermal & Electrical proof), Safety Goggle, Suitable Nose mask (for dusty and fumes area), Ear protection (Ear Plug for low noise area & Earmuff for high noise area).

Safety Communication: Display of safety posters, Danger signage, Directional Signage, Safety notice boards shall be provided / displayed at site. Signage#s color code to be followed as per IS: 9457.

PPE Requirement

S. No. Description of PPEs Applicable standard Recommended Brands
1 Safety Helmet (FRP for hot zone /plant area and HDPE type standard helmet only for open place or construction activities) IS-2925 Concord (FRP): Hot Zone
HDPE for cold zone: Udyogi thermoguard, 3M, MSA
2 Safety Shoes IS:1989,15298 & EN-345 Branded
3 Full Body Harness (Double Lanyard braided/karamantle rope (1.8 meter) + Scaffold Hook+ thigh strip+ Trauma kit)- Height work EN 361, IS 3521 Udyogi/KARAM/Life Gear/Salvator

4 Fall arrester (Rope Grab, wire rope type)- Height work EN 353 Karam/Udyogi/Life Gear/Salvator
5 Fall Arrester rope (Poly amide /Karamantle 0- Height work EN-353 Karm/Udyogi/Life gear/Salvator
6 Nose Mask (Dust, Fumes & Organic Vapour) IS 9473 (2002), IS 8347 (2008), N95 Venus/3M/KARAM/MSA
7 Ear Protection (Ear Plugs/Muff) IS 9167:1979 Ear Plug- Venus/KARAM/3M
8 Descender (Rescue Kit)- Height work EN-341 Karam/Udyogi/Life Gear/Salvator
9 Horizontal Lifeline- Height work EN-795 Karam/Udyogi/Life Gear/Salvator
10 Crawling Board for working on roof EN certified Karam/Udyogi/Life Gear/Salvator
11 Welder#s Helmet (attachment with helmet) IS: 1179 Concord+Udyogi glass
12 Black Goggles (for welder helper) IS:7524 Karam/Udyogi/3M/Venus
13 Face shield (visor) with helmet IS:8521 Concord+Udyogi glass
14 Rotating guard for every rotating machine IS 9474
15 RCCB/RCBO (30mA & 30 mS) - All panel board IS:12640 Siemens/ABB/Standards/Havels/L & T/Schneider
16 Fire extinguisher DCP/CO2/Water/Foam IS: 2171,2878,10204,940 Kanex/Ceasfire/Minimax
17 Safety goggles- for all IS:7524 Venus/Udyogi/KARAM/3M
18 Cotton Hand Gloves # For all workers IS: 6994 Udyogi/Atlas/Similar specification
19 Leather Hand Gloves # For welders IS: 6994
20 Chemical handling hand gloves IS: 8807-1978/ EN ISO 374-1 Atlas/Udyogi/Frontiar/Ansa/Midas
21 Electrical Gloves rubber - For Electricians (as per voltage rating) IS: 4770 Raychem/Honeywell/Linepro
22 Barricade tape IS 13415:1992
23 High visibility safety workwear (Only for projects) EN 471 Udyogi/Tara safe/KARAM/etc.

24 Reflective FR Jackets for Hot Zone: (>= 350 GSM)
Reflective Jackets for Cold Zone (>= 250 GSM)
25 Flash back arrestor# DA /
Oxygen (Each cylinder 2nos
(one at regulator another for Torch end) IS: 11006 Messars/ESAB
26 Two-Stage Gas Pressure
Regulator # For each Cylinder IS 9798
IS 6901 Messar/ESAB
27 3 tube NM gas cutting torch and Hose Pipe for Cylinder For (Acetylene/LPG # red and Oxygen - blue) IS 818
IS 9573 As per standard
28 Lifting Tool & Tackles and lifting Equipment Test Certificate # TRX/ Farana / Escort -F-15 for lifting activity (Hydra is not allowed in JINDAL STEEL Premises), Crane, Pulley, Sling, D-shackle, Bow Shackle Rule-62 &74(b) Standard
29 Distribution Board- IP (Metal Clad board with RCCB/RCBO, Industrial IP Sockets)having Shed or Canopy # As per requirement IS 3832: 2005Siemens/ABB/L & T
30 3 Core cable and above - For all Electrical connection IS 694, IS 7098, IS 8130 As per standard
31 First Aid Box with contents Factory Act As prescribed in the Factory Act, Sec; 45
32 Hook Latch - For all pulley hooks IS 3832: 2005As per standard
33 Sign Boards # As per job requirement. As per requirement As per requirement
34 Gas detectors (separate/multi), CO, O2, LEL /H2S, Cl 2 (Specific area where above gas is available. IS (Part 29/Sec 2 /IEC 60079-29-2 : 2007) or
BS EN 50402:2005 +A1:2008 - IGD
MSA/Drager/Honeywell
35 SCABA (Specific area where above gas is available) IS 10245-2 (1994) / NFPA#1500 /EN 12245
MSA/Drager/Honeywell/3M
36 Aluminized Coverall for Handling Hot substances IS 2745
EN ISO 11612

37	Arc Flash Suit as per rated voltage for working in High Voltage	IEC 61482, NFPA 70E	Honeywell, 3M, Tarapro and Jutec Udyogi

Note: Job specific PPEs shall be selected & used as per above mentioned standard /recommended brands.

In addition to mandatory personal protection, contractor shall provide job specific protection as per the requirement (e.g. welding face shield attachment with standard helmet, gas cutting goggle, leather gloves, full leather apron for hot work, cut resistance hand protection for sharp edge material handling, gum boots in muddy area and log grass, full body safety harness for work at height, fall protection while ascending and descending on ladders to approach height, PVC suits, hand protection and face shield for handling chemicals, etc.). Lifesaving equipment like self-contained breathing apparatus, airline respirators etc. shall be provided by Jindal Steel wherever required.

Training / Skill Enhancement: Contractor shall have its own training and skill enhancement program in place for his employees. It is mandatory to deploy or associate with external competent agencies to ensure that the workers are trained and their skill is enhanced with ongoing specific and refresher training programs. Contractor shall pay specific attention to the regular skill enhancement training of safety critical trades and maintain records accordingly.

All workmen and Staff shall undergo mandatory Jindal Steel job specific training (refer to training matrix and training schedule). Safety induction shall be mandatory for all contractor workers prior to issuance of Jindal Steel gate pass. The instructor conducting the safety induction is empowered to screen any of workers that do not exhibit the capability of understanding the general safety rules of Jindal Steel. The decision of instructor shall be the final and non-negotiable. No person will be allowed to work at or more than 1.8-meter height without the use of a full body harness and other fall protection arrangements. Contract employees who are expected to work at heights shall obtain a valid Jindal Steel Height Pass issued during the gate pass process. Contractor representative and safety In-charge shall participate in all Jindal Steel Project Safety Committee programs at least once a month and in workplace safety joint inspection once a week.

Special care must be taken while connecting or disconnecting electrical hand tools in plug socket of electrical points. The Contractor must not use tools having damage plug and defective extension cords. Adequate earthing connection on equipment should be ensured by the contractor, while using electrical energy for his equipment, because earthing connection protects the user from electric shocks. It is essential to install suitable earthling connections to the body of electrical hand tools / Appliances / Welding sets etc. and Electrical Circuit Breakers.

Drivers of a goods carriage transporting any dangerous or hazardous goods shall observe required precautions, for preventing fire, explosion or release of dangerous or hazardous goods carried by them while the goods carriage is in motion and when it is not being driven. They shall ensure that the goods carriage is parked in a place which is safe from fire / explosion and any other risk and is always under their control and supervision or of some other competent person, as designated. At the parking lot, the driver must ensure that parking brake has been applied. Driver shall carry Transport Emergency Card and MSDS for the hazardous materials.

No person shall carry matches, fuses or other appliances capable of producing ignition or explosion in any installation or storage shed which is used for the storage of petroleum.

While workmen move at heights from one workplace to other workplace such as along the rafters, roof beams etc. the provision of fixed lifeline shall be made and diligently used to protect themselves from falling. Telescopic boom lift (Sky man lifter) to be used as and when required (perfect for work in areas with limited access and it enhances safe working efficiency while offering greater horizontal outreach than any other type of aerial platform). Adequate illumination shall be provided as per Jindal Steel OH&S Plan. (108 Lux).

Other than licensed electricians no one is allowed to carry out electrical connections, repairs on electrical equipment. Minimum IP44 industrial electrical appliance to be use at site.

Vehicle speed shall be not more than 20 km/hr inside the project & plant premises. Violation of speed limit is a punishable offence. All electricians will carry valid electrical license (authorized by respective state electricity board senior electrical engineer).

The contractor shall ensure that all vehicles & mobile equipment are fit to deploy and fitted with Driver Fatigue Management system (DFMS), anti-tilt switch, DALA raise alarm as per safety checklist like horns, reverse horns, brakes, headlights, taillights, indicators and wipers etc. are ensure that in working condition. The drivers shall have licensed and trained to drive vehicles. An ABC type fire extinguisher and a First aid box to be available. Construction equipment that is more than 10 years old shall not be allowed on site. However, Jindal Steel may allow deployment of older equipment in special cases where the equipment are maintained in excellent working condition and meet the specified safety requirements.

Contractor shall ensure conduct of toolbox talks to workers by respective supervisors on daily basis. Such toolbox talks shall include the gist of standard procedure of carrying out a particular activity and job specific hazards/risks along with specific control measures / safety precautions to be implemented to prevent any untoward incident. Prevention of accidents in contractor activities shall be given priority. All incidents and near-misses shall be reported by contract workmen to enable the management to take necessary steps to avoid re-occurrence.

All compressed gas cylinders must be stored and transported in an upright position and secured in position with caps. Empty cylinders must be stored separately. All gas cutting sets shall have flash back arrestors at both ends (Cylinder & Torch side).

Working Hours: Contractor shall ensure the working schedules in such a way that no worker extends his working hours beyond 8 hours at a stretch. In case of extreme situations where work cannot be stopped and reliever is not available, the worker may continue in extended hours while the contractor arranges an alternative. It is significant to mention here that such practices are acceptable only in case of extreme situations and shall not be accepted as a routine practice. All workers shall be given compulsory weekly off.

Participation in Jindal Steel#s Safety Activities: Contractor shall ensure the active participation by his staff and workers in various safety activities organized by Jindal Steel like safety training programs, safety committee meetings, mass safety meetings, national safety day celebrations, fire safety week observance, etc. and any other safety activities.

Safety Monitoring: Contractor shall ensure that its supervisor and safety officers conduct safety audit / inspections daily, to identify unsafe acts and unsafe conditions and take timely action to avoid any accident. Records of such audits/inspections and status of compliance shall be kept up to date and shall be submitted to Jindal Steel authorities as required.

Support System / Structure: Contractor shall ensure that adequate support system has been established at his work site to mitigate any emergency situations (medical, unrest, incident, fire, etc.) so that timely help / assistance can be provided to affected persons.

Response to Safety Concerns: Contractor shall promptly respond to the safety concerns raised by Jindal Steel authorities and submit the compliance status within the time-bound schedule. A record of every safety concern raised by Jindal Steel authorities shall be kept up to date with compliance status and shall be submitted as required.

Incident Reporting, Recording and Investigation: Contractor shall report all incidents including minor or major and near-miss incidents promptly to respective Jindal Steel Safety department (OHS). Detailed investigations shall be carried out for all incidents and records shall be maintained along with compliance to prevent the recurrence. All major accidents shall be investigated by an independent team constituted by Jindal Steel Top Management and contractor shall extend cooperation and support in timely investigation. Contractor shall also preserve facts and figures till the investigation is completed and shall be responsible for presenting eyewitnesses from his team before the investigation committee for necessary interaction whenever required.

Disciplinary Action against Safety Violations: While Jindal Steel extends its every possible support to contractors in ensuring the safety and health of its all stakeholders including contractors, it is necessary to have a disciplinary action mechanism for repeated safety violations. The table given below mentions a summary of disciplinary actions that may be taken against the contractor or its employees if repeated safety violations are reported.

S.No.	Type of Safety Violation	Frequency	Action Monetary (Rs/-)	Disciplinary
1	PPE Related, Unsafe situation and Unsafe act	1st	2000/-	Warning Letter-1
		2nd	5000/-	Warning letter-2
		3rd	10000/-	Warning letter-3
2	Traffic Safety Related	1st	2000/-	Warning Letter-1
		2nd	5000/-	Warning letter-2
		3rd	10,000/-	Warning letter-3
3	Legal Noncompliance against safety Legislation requirements		10,000/-	Warning Letter
4	Non-compliance to safety audit findings	1st	10,000/-	Warning Letter-1
		2nd	20,000/-	Warning letter-2
		3rd	30,000/-	Warning letter-3
5	Lost Time Accident/ Dangerous Occurrence # All expenses towards revocation of prohibition letter shall be taken care of by the vendor	1st	20,000/-	Warning Letter-1
		2nd	30,000/-	Warning Letter-2
		3rd	50,000/-	Contract Termination
6	Fatal Accident	1st	500,000/- + All expenses towards revocation of prohibition letter	Degradation of Contractor Rating or termination of contract
7.	Any other which may cause danger to life and health of workers		As decided by an independent committee constituted by Jindal Steel top management	

The above list of penalty and disciplinary actions is symbolic in nature. The same may be increased if decided by an independent committee constituted by top management for investigation of a particular case. The decision of committee shall be final and non-negotiable.

In case of repetitive failures to safety compliance / poor safety performances of a contractor or any gross violation which may lead in serious consequences, Head, OHS having full authority to appeal to the Contract Cell with the consent of Unit Head to cancel the running contract or to blacklist the contractor at Jindal Steel as per the review by Management Committee.

Blacklisted Contractor may appeal to respective HOD, OHS and Management Committee to unlock their blacklist with respective written corrective and preventive action plans. Once HOD, OHS & Management Committee is satisfied with contractor#s action plan, HOD-OHS or Respective HOD may appeal to Contract Cell to unlock the blacklist with consent of Unit Head.

General: The above-mentioned safety conditions of contract are general in nature. Specific safety conditions for a specific contracts shall be stipulated by concerned engineer in-charge at the time of raising service request and the same shall applicable over and above what is specified in this document. The contractor shall also comply with other safety requirements stipulated under The Indian Factories Act, State Factories Rules and other applicable acts / rules, applicable standards, and Jindal Steel guidelines / instructions issued from time to time.

FAB; MISC DOSING TANK & PLATFORMS AT ETP PROJECT

Free issue materials
==========
1) STRUCTURAL STEEL (Plate, Angle, Channel, Beam, CHQ Plate, Fabricated Steel Structure) - 150 TON
2) Pipes (MS, CS) - 100 TON
3) Pipe Fittings (Flanges,# Elbows, Nipple, Reducer, Tee Pipe, Tee Reducers) - 100 PC
4) Valves (Gate, Globe, Ball) - 50 PC
5) Paint , Primer - 10,000 L
6) Thinner - 2,500 L
7) Gasket (All Types) - 150 KG

Beneficiary: JSL

---

*Vendor to take the sample approval from the EIC before the purchase of all the brought out items. Only approved Make items to be applied.

Vendor to maintain all the documentation of purchase of brought out items.

Scope of work:

All labor is in contractor scope.

Vendor shall bring the material after taken sample approval from Engineer In charge.

Vendor shall be follow the item specification.

Terms & Conditions:

1) Material and consumables other than free issue items shall be provided by Contractor.

2) All tools and tackles is in contractor scope.

3) Supervision will be done by JSL Engineer.

4) GST if applicable will be paid extra. But you have to submit the GST Registration Certificate along with the Bill.
GST Registration and category of the service should be written on the face of bill for timely clearing the payment.

5) All statuary compliance as per the government rules will be borne by the contractor (PF/ESIC/Employment card/Bank account for individual)

- Oxygen cylinders will be issued by JSL on a chargeable basis.
- Argon cylinders will be issued by JSL on a chargeable basis.

6) PPE like safety shoe, helmets, and jackets will be provided by the contractor.

7) The above prices are inclusive of all taxes. Income Tax, WCT if any, as applicable shall be deducted at source from the invoice at the rate as applicable under Income Tax Act and JSOL shall issue TDS certificate for the same.

8) Termination of the contract:
In case JSOL observes that sufficient efforts are not put in by CONTRACTOR to expediting the work to complete the same in stipulated time period as above, JSOL shall be free to engage any other Contractor/Resources to speed up the work and debit the cost to CONTRACTOR account. JSOL also reserves the right of terminating the contract at any point of time without assigning any reasons what so ever.

9) Penalty for rejection:

If any work done by the contractor found not up to the standard of JSOL due to any reason and in case the contractor does not able to modify it, then the job will be treated as rejected and the cost involved towards free issue material in the job shall be recoverable from the contractor's running bills.

10) Arbitration:
I. Arbitration, if arises, shall be resolved in accordance with the Indian Arbitration & Conciliation Act 1996 with the latest revisions.
II. Any dispute arising out of this contract shall only be subject to the jurisdiction of only Angul Court.

11) Bio-Matrix Punch is Mandatory against WO. However, for any emergency / Breakdown job -A manual attendance sheet certified from the HOD User dept should be submitted with Invoices /Bills.

12) Day-wise copy of Tool Box Talk and Job Cards - Along with the name of contract worker's name & WO No and certification from Safety site i/c should be submitted along with the Invoices /Bills.

13) Owner shall provide labour hutment and rent for the same will be recovered at the rate of Rs 500/month/worker.However the Contractor has to submit the details of labour deployment, number of labours to be deployed in the peak period and average number of labours to be deployed along with Offer

14)Cranes upto 150 MT shall be under scope of vendor, cranes above 150 MT capacity shall be provided by JS on chargeable basis.

15) Equipment deployed should not be more than 5 years old, if equipment more than 5 years old vendor must submit third party inspection certificate.
16) All the machines and manpower shall be insured as per rul. All the drivers deployed should have valid driving or operating license for the heavy equipment, which shall be produced as & when demanded by JSOL representative.

17) Vendor shall also take the liability of local liasioning, ROW etc during execution of the Contract. No idling charge for the deployed equipment for whatsoever reason will be paid.

18) LD Clause shall be applicable if full or any part of the work is not completed within the scheduled tine, JSPL reserves the right to impose LD@0.5% per week to the maximum of 5% of the order value.

Payment Instruction: Please note that you have provided following details for payments to you
Bank A/c : 111505001254 , Bank : ICICI BANK LTD , Branch IFSC Code :
For any inquiries related to payment status of invoice(s),remittance details,deduction details or account reconciliation , please write to sscfasd@jindalsteel.in
